President Dave Hatzung's

Very Presidential Column

So my friend Alfred E. Newman gave me some inspiration for this column...I quote "The only advantage to living in the past is that the rents are much cheaper!" Also, Carol Johnk's column in last month's newsletter got me thinking back to when I bought my AH.

And that got me thinking about how wise an investment was my 15' (as Dan Powell calls my car) BRG 1967 Austin Healey 3000 BJ8? Where are the values going? Where is the economy going with Trump in office??? Some say you better buy some more cars right now! Some are not happy at all, but that's a whole other subject. I think my Healey was a great investment. I shared my Healey story with a few of you, but here is how I ended up with my car and in the MAHC.

In 2001 we moved to the house we are now in, and the new way I drove to the office took me by a certain guy's house. One day when the garage door was open, I noticed a sports car sitting there. That piqued my interest, because I'd owned some MG's in the past, but not for quite a few years. Another time as I drove past that same house, the garage door was open again; and there was a guy working in the yard, so I stopped. I introduced myself and asked him about the car in his garage. That was all I needed to say to start the conversation. He bought it in 1978, and it turns out that I knew the guy he bought it from. He said he hadn't driven the car much, so I asked him if he'd ever be interested in selling it. He said "I'll put you on the list". That didn't sound good to a guy like me who is the eternal optimist hoping for a good deal.

Anyway, as time passed, we got to know each other better. On my birthday in 2014 (for YOUR records is Bastille Day) which is July 14th, I got a Facebook from him saying "Happy Birthday. Call me if you want to buy my Healey". In one breath I said YES. In my next one, realizing what he might want for it, said "O crap"! Then the next thing I did was call Jeff Lumbard, whom I had gotten to know because we were both in the insurance business. I told him of my opportunity. Well, he said he'd love to look at the car for me. Jeff met me the next week to look the car over. He drove it, and he told me it was a pretty solid car. That was the easy part. I then had to figure out how to tell my wife Mary about it...and she hates it when I tell this next part. When I told her, she very calmly said - if I bought that car, she was going to redo the kitchen. Long story short, the Healey cost me way way way more than Jeff said I should pay for it. Of course, he said that I also needed to join the MAHC! So that's how I ended up with my car and a membership in the club.

While that seems like the end of the story to you, to me it's been the beginning of a new story. It's what makes my AH one of the best investments I've ever made. I have had sooo much fun with the car because I joined the club. It's a blast to drive. It's even fun to park it, because of all the people who walk around it and make comments about what a nice car it is. AND, like I said, it's been the beginning of a whole new chapter in my life. While I make a big deal out of owning this car, I NEVER would be having the fun I have had if it weren't for the MAHC - the many activities, and the wonderful people that make up the club. So, THANKS to all my fellow MAHC members for my great new memories.

Also, thanks again to Carol Johnk for sharing her Healey story! I'll see if I can't dig up a few more stories for my future columns.

I wish all of you a Healthy and Happy and Fast and Safe 2017!

A brief History of Austin Healey 106

By now most Minnesota Austin Healey Club members have heard that there is an increased interest within our club membership to take our beloved Austin Healeys out racing. This should come as no surprise, as our club has had a long history of organized off street driving and speed events - combined with a number of individual members with 30+ years of vintage racing history.

Yes, I have been swept up in this racing thing too.

After 10 years of heading over to Road America to cheer on my fellow MAHC members, I finally decided to take the plunge into vintage racing. Immediately thereafter, the search for a car began. It wasn't long before the same friends put me in touch with a racing colleague of theirs who was considering passing on his car and retiring from racing.

It was no ordinary car, but it was a big Healey beast of some renown. Its name is "106", "MJG582" or "the spare" depending on who you're talking to. It is a beautiful example of a race prepared Big Healey in the works livery. "106" is a 1957 BN4, that in its early UK life was converted into a race prepped works rally type race car. That conversion was done at the hands of notable UK Healey enthusiasts Nick Howell and John Chatham in 1974 with numerous parts from the Healey works department (thus its nickname "the spare"). After a decade of campaigning the car in England, in 1984 Nick Howell agreed with American Phillip Coombs to sell the car to Phil's racing friend Dan Pendergraft. Dan campaigned the car across the United States from 1984 to 1998 along with Phil, in either his famous 56FAC or his later "105" BJ8 - the sister car to "106". Together they raced more than 36 weekends as the Wild West racing team with 5 friends. Phil and Dan were the leading challengers to UK's best in the 1990 Healey Challenge with the Brits. Eight years after that famous summer, 106 went on to new owner Jim Gralton - later to Tom Hidell - and most recently in 2002 to Jim Gregg.

Jim was a great steward of 106 and it's racing legacy. He campaigned her across the country, including the 2005 Healey challenge with the Aussies. He also did numerous car shows including the prestigious Quail motorcar gathering in Monterey. Jim owned the car from 2002-2016. The car came complete with loads of documentation from all of the previous owners, including magazine articles, racing logbooks, repair receipts, photos, other documents, and publications.

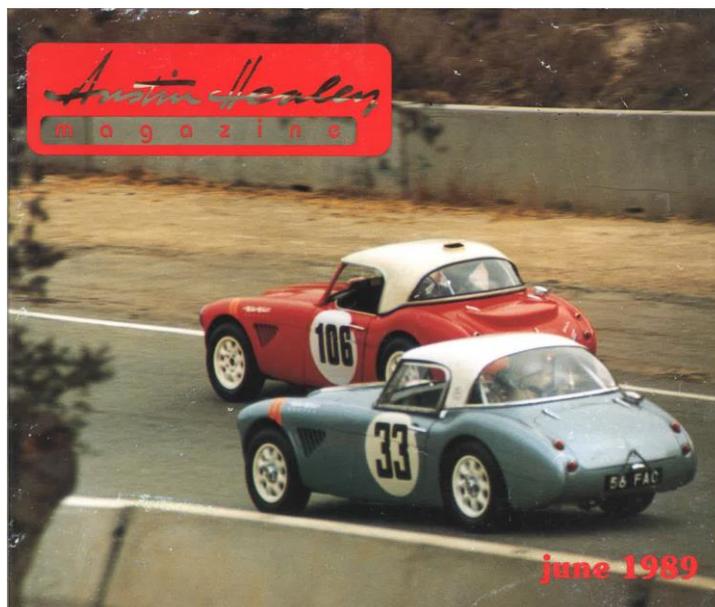

It also came ready to race, and that's what I've been called to do. We attended two track days/driving school sessions at BIR this fall to get the feel of this amazing machine. Later, we took it to Elkhart Lake to the ELVF for noon time track touring at RoadAmerica.

So, next up is the Bondurant Racing School this winter. Next spring I'll begin preparation for the SVRA spring event in May at Road America, which if all goes well will be my first official race weekend. I've had great mentors along the way and will continue to lean on the MAHC racers as I make my way on this fabulous journey.

Thanks guys - See you at the track! Scott McQueen

Transfer of ownership of 106 from Jim Gregg to Scott McQueen in Decatur, Alabama. Scott was accompanied by Jeff Lumbard and Dan Powell on this memorable trip.
